SALMON MINE TO OPERATE SOON

C. B. Conlin, well known Los Angeles lawyer, is in charge of the new company at the Salmon Mine. The stockholders have reorganized into a new company and are coming back to make this mine a paying property. Mr. Hatfield of Santa Ana is president of the new company.

The legal troubles have about all been straightened out an d as soon as the machinery is assembied, work will start.

There are five formations granodiorite, serpentine, slate, granite and slate comes together ore runs $27 porphyry coming together at the back of a fault which has thrown a gossan cap or "iron hat". The main ledge can be traced for a distance of about 700 feet. Ore values run from $10 a ton to $1. a pound, it is said. The ledge averages about 20 inches running in an east and west direction. Four other ledges run northerly and southerly and all of them bunch under the "iron hat" On another ledge where granite and slate come together runs $27 to the to the ton on assays.

The Salmon Mine property consists of six claims.

The main shaft is down 160 feet and has half filled with water. A second shaft is down about 100 feet this latter one has caved a little since closing last winter.

—0—

NEW MERRIFIELD MINE IS REOPENING THIS WEEK

It has been reported Mr Fonce of Grass Valley and associates have a crew of 8 men reopening the New Merrifeld mine west of Nevada City. The old shaft is down 200 feet.

It is understood that the ore values are above the average. The mine has not been worked for some time.

CO SCHOOL AFFAIRS ARE IN GOOD SHAPE

A school report from Mrs. Ella M. Austin, county superintendent of schools, regarding school affairs has been forwarded to the State Department of Education. It covers high and grammar schools of Nevada County.

There are 34 elementary districts in the county with three high school districts. Of the grammar school districts four were suspended on account of being below required attendance.

The elementary districts employ 58 teachers which include two rural supervisors.

There were 1392 pupils enrolled last year with an average daily attendance of 1228. This is an average daily gain of 18 pupils and an average daily attendance gain of 35. There were 604 boys and 606 girls enrolled for the year with 80 boys and 79 girls completing the elementary school course.

Total value of property owned by elementary school districts is $157,115.

Receipts of the districts included $48,388.76 from state apportionments; $49,576.56 from the county

Special taxes were levied by Bear River, Grass Valley, Nevada City, Overton and Truckee districts.

Total disbursements were $109,877.17 with the sum of $26,749.17 to the various districts accouht on July 1st of this year.

The three high schools are Nevada City, Grass Valley and Meadowlake. They have a total attendance of 507 pupils, 245 boys and 262 girls. The aveage daily attendance was 440. 38 boys and 40 girls graduated last year. 21 teachers and three principals employed in the three high schools. The gain over the year before in high school attendance was 48.

The enrollment by districts for the present year was Grass Valley 313; Meadowlake Union High 38 and Nevada City 156.

Funds received for the high schools were: $16,488 from sate; $32,995 for county; and miscellaneous $16,508.

Mrs. Will Walters and two little granddaughters are visiting her brother, James Dolan and wife on Boulder Street.

N D G W PRESIDENT VISITS NEVADA CITY

Grand President, Evelyn I. Carlson Native Daughters of the Golden West paid her official visit to the Parlors in this section this week. Wednesday night her visit was to Manzanita Parlor at Grass Valley where a dinner proceeded the exemplification of the work of the parlor

Wednesday afternoon accompanied by Mrs. Beatrice George the District Deputy of Grass Valley, and Mrs. Allison Watt, Past Grand President, they motored to Columbia Parlor at French Corral where the ladies had prepared for them a luncheon under the trees.

Here again the work was put on for the benefit of the grand officers. While Columbia Parlor only has about a dozen active members they are loyal to the order and enjoy many happy times in their little hall The grand officers enjoyed the meeting with these sisters very much and encouraged them in carrying on their work.

Thursday night Laurel Parlor enjoyed a dinner at the National Hotel before proceeding to the hall for the installation of officers, as well as the exemplification of the work.

The worthy grand president was presented with a nugget pin by the Parlor and the district deputies were each presented with a small gift. In the grand president's address to the Parlor shows the aims and ideals of the Native Daughters for the coming year and asked for the cooperation of the local Parlor. The sisters were charmed with the personality of the grand president and were delighted to enjoy this visit with her.

Friday they journeyed to Downieville where they held a meeting with the Naomi Parlor in that city.

The grand officers were Mrs. Allison Watt of Grass Valley; Mrs. Evelyn I. Carlson, Mrs. Katherine Keating, Mrs. Myrtle Hatman. Mrs. Amelia Silva, ,Dolores Parlor, S. F.) Mrs. Molley Spaetti, Mrs. Emelie Long, San Joaquin Parlor, Stockton, Mrs. Elsie G. Schwartz, Columbia Parlor, No. 70; and Mrs. Ida Sweeney, San Jose Parlor.

Mrs. Edna R Briggs of Sacramento, motored up to attend the meeting at Grass Valley

STEERING GEAR LOCKS ON DOWNIEVILEE AUTO STAGE

Elmer Fisher, driver of the Fischer Auto Stage, had the unhappy experience of having his stearing gear lock. The stage tunred over twice. He had several broken ribs and other injuries. He was fortnuate in being thrown clear of the car, as it was completely demolished.

—0—

MOHAWK MINE WAS AMONG EARLIEST WORKED

The following article shows that there was keen interest in gold mining in the early days:

The article of the Mohawk Mine was written for the book compiled by Edwin F. Bean, printed in the Daily Gazette Book and Job Office in 1867:

"This mine is situated in Gold Flat, a mile south of Nevada, and was loated by Henry Stede and others in 1857. Stede and his partners worked the mine for some years histing the rock by means of a onehorse whim, with as favorable results as could have been anticipated with limited means. In 1863, Captain Kidd purchased the mine, erected steam hoihting and pumpcline; but the work was several times interrupted by reason f the large quantity of water with which the miners had to contend. William L. Tisdale subseqeuntly purchased half the mine, and a perpendicular shaft was sunk to the depth of a hundred and eighteen feet, and drifts run each way on the ledge. About 500 tons of rock was taken iut and crushed by Kidd and Tisdale which averaged thirty-four dollars a ton; but the work was suspended last year, on account of the machinery not being of sufficient capacity to work the mine. It is the intention to put on heavier machinery this summer, and resume operations. The ledge appears ti be full of rich pockets of free gold, in which many fine specimens have been found. The Mohawk is in the granite, its course is nearly north and south, and, lik the Sneath & Clay which is a parallel vein dips to the west.'"

PAINE BROS. FIND GRAVEL VALUES

Herbert and Henry Paine were in Nevada City Friday from the mining property near North Columbia.

These men are more than the ordinary snipers being more miner-like and their work is bringing in good returns.

At present they are real river miners, having taken located two river claims continuous with the South Yuba river. At the rate they are progressing it will take about 10 years to work this ground. While they are not making big returns they are encouraged with the returns and indications are the gravel will bericher as they continue with their excavation.

They have built a wing dam 150 feet wide by 5 feet high. The South river is flowing about 2000 miner's inches of water at the present time. The water is not low on this river as in the other streams, this season.

A power winch has been installed to remove large boulders, 50 feet of flume has been built to carry water from the dam. 150 feet of small pipe was laid to carry water for sluicing. A 2 inch centifugal pump is used to drain low places in the gravel pit below the dam. They are below the level of the present current. About 1000 yards of gravel has been moved, at the rate of about five cubic yards a day.

The methods the Paine Brothers use are similar to those of the Chinese, who were the best known placer miners on the Yuba River.

The Chinese were the best known placer miners on the California streams and in fact if they had not worked the streams and rivers so carefully there would have been many millions left for the Americans. In the '60's about 3000 Chinese were on the Klamath river between Scotts Bar and Happy Camp. Practically the same conditions existed here on the branches of the Yuba and other streams all along the Sierra Nevada range. As the story goes in early days in the Red Dog and You Bet section a Chinese hired two Americans and blindfolded them and took them to the property, keeping the men with the best of supplies and care, until they had worked a few hundred feet of gravel only a few feet wide. He cleared up about three and a half million dollars.

MEN INJURED GOING TO FIRE ARE IMPROVING

Carl T. Larsen driver of the automobile loaded with fire fighters which went off the Downieville highway last Friday morning, and B. A. Douglass and T. Sogourney, all of whom were injured, are reported to be getting along as well as can be expected.

Mr. Larsen had seven ribs broken, Mr. Douglass a crushed shoulder and broken arm, while Mr. Sigourney had an ear nearly torn off.

All three are local men and their many friends wish for them a speedy recovery.

—0—

Fred Searls, mining geologist and vice president of the Newmont Gold Mining Corporation, is here from New York spending a few days at his old home on business and pleasure.

NEW STAMPING MACHINE AT P. O.

The Nevada City postoffice received from the Postoffice Department at Washington, D. C. the very latest type of cancellation machine. The new machine is electrically driven with one-eighth horsepower motor and handles any size and thickness of letter at a speed of approximately 600 letters a minute. The Post Office force are all delighted with the new machine, which does away with the laborious stamping of cancellations by hand.

The stamping part of the machine is removable so that the type may be changed to show the day and time which the cancellation was made. This requires only a few seconds to do. While the new machine is a great time saver this factor is not appreciatable at this time, but will make a tremendous difference in handling the Christmas ruch of mail when over ten thousand first class letters go out from this post office. It is estimated at the post office that four hours daily would be saved during the three rush days preceeding the Christmas holidays.

The Nevada City Post Office is ably managed by Post Master P. G. Scadden, who was appointed April 1, 1922 and his assistants: Miss M. E. Meservey, since 1908; Johnathan Pascoe, 20 years; H. A. Kilroy, 18 years; Joseph Huey, 18 years; Lloyd Hiscox, substitute clerk 9 years; John Webster, rural carrier.

There are three incoming and three outgoing mails daily by train; four mails incoming and four outgoing daily by stage to other post offices up-country and to the west which supply about 17 smaller offices.

—0—

MR. GRUENWALD BUSY DRIVING TUNNEL

Mr. Gruenwald, who lives in the same neighborhood as Mr. Thomas Coan, west of Nevada City, is busily engaged in opening up the virgin property he owns. He has driven his tunnel in 275 feet and feels encouraged with the prospects so far encountered.

His property is not far from the rich Orofino vein that produced a $100,000 on a nearby property.

—0—

BIGELOW BROS PREPARE FOR WINTER WORK

Bigelow Brothers, who have a promising gold bearing property in the North Columbia District, are doing their own development work.

They have ceased operations for the time being and are taking contract work on several shafts in the Folsom mining district east of Sacramento.

They will return in the fall to resume work on their own property.

These men are perservering in their efforts to open their own mine and are encouraged with the showing being made in the old gravel bed in which they have sunk a shaft 80 feet.

—0—

F. C. Butler passed thru Nevada City early in the week enroute to Alleghany to visit the Sierra Consolidated Mining Company's property at that place.

Punctual

WOMAN LAWYER BOOSTS MINING ASSOCIATION

Helen Swain Gilmore, wife of Charles L. Gilmore, attorney for the Mining Association is a real booster as is shown by the following extract from an article appearing in the Sacramento Union of Sunday July 1931:

"A question concerning California mining struck a spark. Gold is Mrs. Gimore's professional enthusiasm. In mining she sees the state's future as clearly as pages of history tell us it was California's past.

"'It's ridiculous for California to have hard times," Mrs. Gilmore declares. "Last year's production of gold was $3,000,000 in this state; it could have been $185,000,000, for only the surface of our mineral wealth has been touched.

"'At one time there were a quarter million people employed in California's mines and there will be that many and more when the revival of mining comes. Then there will be no orchards reeking with fruit rotting on the ground and no stores with dustry shelves, for there will be workmen and their families to buy.

"'What is needed is proper legislation. Prices of labor, equipment, everything have gone up, but the return from gold remains constant at $20.67 the fine ounce.

"The gold is waiting there to be mined. In the Idaho-Maryland mine at Grass Valley, where $3,250,000 was spent before pay ore was struck, ore worth $50,000,000 now is blocked out.

"'All that is needed is state legislation, reducing mining property taxes and compensation insurance requirements, together with public support. The popular belief that mining isn't legitimate business is ridiculous. A Dun and Broadstreet survey has shown 64 per cent of all mining investments are successful, while only 46 per cent of investments of all other description meet with success. Mark Twain's description of a miner as a liar with a hole in the ground was more entertaining than accurate.

"'When the mining revival comes, Sacramento particularly will benefit. Other parts of the state are profiting from oil. But oil only makes wealth; gold is wealth.'"

FIERCE FOREST FIRES DO MUCH DAMAGE

A fire of undobted incendiary origin which started on the road above the Indian Campoodie, two miles west of Nevada City at 2:15 o'clock Monday afternoon, burned tothe very back door of the community house at Camp Augusta of the Piedmont Camp Fire Girls.

The beautiful camp site and the buildings thereon were saved by the use of two pumpers which brought water from Lake Vera, a thousand feet distant, to wet down the buildings and grounds, and when the fire reached the camp it was stopped by the thoroughly wetted grass and brush.

One hundred and six girls and their twenty-four councilors of the Oakland Camp Fire groups across the lake were brought into Nevada City and quartered for the night at Red Men's Park. It was feared the fire which was roaring down the northern slops of Cement Hill less than a mile from the lake would burn easterly along the edge of the lake and burn the camp and its equipment.

So hasty was the departure from the camp that the girls, about ready for their evening meal, were hurried to the Cooper ranch a half mile distant where they were met by automobiles and an auto stage, which brought them to Nevada City where sandwiches and milk were served them.

They were taken to a picture show while their bedding was brought in from Lake Vera and beds made for them in the park. The next morning they were taken back to camp, where they spent the remainder of the week. Their return to Oakland is scheduled for next Monday.

A brisk wind carried the fire over the southern slope of Cement Hill, It burned grass, brush, and timber on the Richards ranch, and then raced down the north slope, toward the Goering and Mooney ranches, which were saved only after a hard

(Continued on Page Four)

YUBA CLAIMS BEING WORKED

J. H. Mumm and Chas. Ramsey are working the Seven Come Eleven placer claim one mile below Freeman crossing on the Middle Yuba. They dug a spill way and dammed the river and turned the water into the spillway. They are using 18 inch boxes. They have erected a derrick and installed a pump .They plan to work fifteen hunderd feet of the river bed to bedrock. This property has been worked over in spots, but spots are found to be very rich, often running a dollar to a pan.

They are also working the Compadre, consisting of three claims which is two miles below Freeman's Crossing, just below the Narrows. This is a high channel and is virgin gravel. Their equipment here consists of a three inch pump and six horse power motor to lift the water 110 feet to the face of the gravel. The channel is 18 feet wide with a 150 foot cut and prospects are very good.

Mr. Mumm was inNevada City last week endeavoring to secure information as to the workings of the old Seven Come Eleven, and would appreciate any data that could be given to him.

CALIFORNIA MINING JOURNAL ON PRESS

With the entire Nugget force working under pressure the first issue of the California Mining Journal is at last in the hands of the printer.

Delayed ad. copy handicapped the make-up but the entire crew heaved a sigh of relief when the forms were finally wrapped ready for the printer.

With the first issue not yet off the press plans are being laid for the second number.

Inquiries are coming in from all parts of the State as well as other sections of the United States.

Every Nugget subscriber is entitled to a sample copy.

Neither time nor expense has been spared in the effort to publish a magazine which the people of Nevada and Sierra counties as well as the Mining Association may well be proud of.

—0—

COAN MINE PROPERTY HAS PLANS TO REOPEN

Thomas Coan has a 500 foot incline shaft on what is known as the Champion ledge which runs through his property west of Nevada City. He is preparing to cement the collar shaft and repair the 10 stamp mill preparatory to starting operations.

To the west of this property are situated the Chapman and Orofino veins. A shaft down 400 feet on the Orofino vein northwest of the Coan property produced $100,000.

About $200,000 was taken out of the Chapman vein which is also west of the Coan property.

The formation is granite hanging wall and diorite foot wall, close to the slate.

This mine is situated in a district that has produced thousands of dollars and Mr. Coan feels confident he will make a success of this property.

CAMPTONVILLE ITEMS

(Continued From Last Week)

Lon Stamey, of Los Angeles, who with his wife and party of friends, has been camping near Snowden Hill left Thursday for his home in the south and with him he had six rattlesnakes and one bull snake, all alive. He has taken rattlers from here several times before, having more sport capturing rattlesnakes than most sportsmen have fishing. He sells the snakes by the pound to some Los Angeles pet store, who ships them to Germany. It is claimed that there are no rattlesnakes in Germany and several rattlesnake farms have recently been started, getting the snakes from this country. When a certain age, they are marketed and almost every part of them is used, mostly in medicine. The oil from the snake sells at $180 per gallon.

Mr. and Mrs. Acton M. Cleveland returned from Sacramento Wednesday, where they were called by the illness of their daughter.

J. F. Lord, of Sacramento, who spent his vacation visiting relatives here left Wednesday for the capital city; he is a former resident.

Miss Genevieve Paine and sister and Miss Harding of Nevada City were in town Thursday.

County Surveyor Jason R.Meek Sr accompanied by his grandson, William C. Meek, was in town Thursday.

Julius E. Pauly motored to Marysville Wednesday.

Lon Stamey and party of Los Angeles who spent two weeks camping here left Friday.

Miss Dorothy Marks moved over from Pike Monday and is attending scholl here.

Rev. H. H. Buckner of Nevada City was in town Thursday delivering an illustrated lecture at the Hotel Francis for the school children.

George S. Porter of Pike City was in town Friday.

Mr. and Mrs. B. F. McNaugh motored to the lower country Friday.

W. H. Cartwrigh tand son, Floyd, and brother, Floyd, of Grass Valley passed thru town Thursday enroute to the upper country

Jomes L. Joubert who has been vacationing at Sawyers Bar, Siskiyou County has gone on to Humboldt, where he is visiting his grandfather.

Emil Verch and Charles Renick arrived a few days ago from San Francisco and are camped at their mining claim on Oregon Creek.

The worst dry season in the history of this section is in progress and the water condition is a serious problem.

A forest fire of accidental origin started Monday at Celestial Valley, near the Butz Ranch. Forest Ranger Frank W. Meggers with a crew of men put the conflagration under control within a few hours, thereby averting a very bad fire.

The Camptonville grammar school and Camptonville Branch of the Marysville Union high school started the new term Monday after a vacation of three weeks rest for the children during hot weather. A good attendance is enjoyed especially in the high school, which has several new pupils from outside places. Mrs. E.J. Pauly is principal of grammar school, with Mrs. Kate M Williams a new teacher in the primary department. Mrs. Kate Hope Livingston is in charge of the high school.

Fred J. Joubert left Tuesday for San Francisco on a brief business visit.

Mrs. Wm. B. Meek motored to Oak Valley Monday on a few days visit with her daughter, Mrs. Fred J. Joubert.

Mrs. Peter Peterson had as visitors her brother, Bob Phillips and family of Modesto.

Wm. Cavanaugh of Downieville was in this section Tuesday.

L. Latrelle of San Francisco passed thru town Wednesday from his old home at Downieville enroute to his home.

Miss Henrietta Ramm of San Francisco is visiting her old home.

The Pendola saw mill, operated by Pendola Broter, two miles east of town, started to saw Thursday.

FRENCH CORRAL NEWS

French Corral, July 28, (Special to The Nugget)—Well this part of the country is surely beset with fires!

Since Thursday morning when smoke was noticed arising from the direction of the Charles French Ranch, help from all directions was called into action and Fire Warden Dorr of Placer county was called as our own County Wardens were everyone busy in other parts. It seemed everyone had to play some part in the service and Calvins, Moultons and Brownings were kept busy feeding the hungry workers.

Fire has swept nearly the whole country, clean on the eastern and southeastern side. The French and Dalberg ranches were completely swept over. In the Esperance and Kate Hays mines, Bulkhead Hill and out toward Readers, Redledge and Slide sidehills. Deputy Warden Howe change later and at last we feel that the situation has been reduced to safety. Unless fires start on the western and northern side. There is rumors of fire bugs being busy and yet it is hard to believe that any one could be guilty of such mean acts.

We have not kept much tab on visitors the past week for with "over 100°" hot weather and fire scare we were unequal to anything else.

Wm. Walsh was here Tuesday. Harry Browning was in his employ for several days helping to take cattle to the mountains.

A peddler from Grass Valley was through here Tuesday selling women's and children's ready to wear clothes.

John Sheves made a trip from Cherokee Tuesday to get some supplies before going on the river to work.

W. E. Moulton made a business trip to Montezuma Hill Wednesday. H. Hoskins and J. Swazey accompanied him to help take out some pipe which they made a trip to Tyler to get. They are preparing to pump out the bedrock pond, as Pine Grove reservoir has given out.

Columbia Parlor No. 70 N. D. G. W. held a meeting Friday afternoon They expect to receive a visit from the Grand President of the Order, Thursday afternoon.

Miss Millie Clerkin was a visitor from Pike City Friday.

Mr. and Mrs. R. McNamara were Firday visitors.

A. Browning and son, Clyde, were week end visitors from Forest Hill.

Fr. P. O'Rielly held services in Birchville Sunday and offered the service in thanksgiving for having our church spared from the fire that swept Birchville two weeks ago. It seems almost a miracle that it should remain unscathed with fire on every side and the church yard full of dry grass. He was accompanied by Robert Beinberger.

You and I

By CHARLES S. KINNISON

I'M GLAD

I'm glad that Spring is comin' 'round,
The time o' year for sowin';
The time o' year for breakin' ground,
For rakin' and for hoein'.

I'm gettin' sorta eager, too,
Old clothes to be a-wearin'—
Outdoors, beneath a sky of blue,
To give my soul an airin'!

I'm glad that Spring is gettin' nigh,
With plants a-gettin' greener—
When everything, from sod to sky,
Seems finer, brighter, cleaner.

READER CORRECTS NUGGET ARTICLE ON DIAMONDS

In your issue of July 24th, reference is made to the diamonds recovered in the Cherokee Mine as being for glass cutting only, and not for jewelry.

The Cherokee diamonds were investigated, and reported upon by a representative of the Tiffany Diamond firm some years since and that investigation demonstrated the fact that these diamonds were second to no diamond production.

This investigation wa sfor the purpose of determining the class of diamonds produced in the Cherokee district. It had been our disposition to advertise these diamond fields in the London Mining Magazines, and this firm deemed it necessary to make a personal investigation, and make an authentic report before any effort was made in that direction.

The diamonds of the Cherokee mine adorn the fingers of many individuals in this and other communities, and our family have two which are about one karat, have refused $500. for the individual diamonds which was recovered as far as I know was 4½ karats.

MID-WESTERN AND WESTERN MEN SEEK GOLD

That mid-western and eastern men with capital to invest in gold mines are coming in large numbers to California to seek properties is the important announcement made by A E. Vandercook of Sacramento, well known mining man and inventor of the mercuric-syanide process of treating sulphides and other base ores. Vandercook, who is receiving numerous inquiries, says that recently several Colorado mining groups sent engineers to investigate Northern Californiamines. Clinton Smith noted Denver mining engineer, has just completed an inspection tour of northern mines.

"The gold miningc industry is coming back strong," says Vandercook. "There is a lot of prospecting going on and old properties are being reopened. But the real thing is the deep interest in California gold mining being shown by midwestern and eastern capital.

If we can prove we have the ore values, these men are ready to take over and develop our mines. New metallurgical treatments make possible the reopening of numerous mines abondoned because the ore was too base forthe old methods.

"I returned Saturday from an inspection visit to the property of the ModocGol d Mines Inc., located near Carrville in Trinity county. It is the old Wagner mine, which has a large vein system of arsenical sulphides wit iron pyrites present, and a good production record. The tailings produced heavily when treated in a cyanide leaching plant. But the ore was too base for the old process Now we are able to treat this ore and recover a high percentage of values.

"Nearing completion on the property is a mercuric-cyanide mill of 25tons capacity totreat the rich ore now being mined in the tunnels. Dr. John H. Duquer, president and manager of the company, is personally directing the installation while C. T. Wells of Sacramento is the millwright The veins average 30 inches wde and the ore as proven by a run in our testing plant in Sacramento is of high milling grade.

"There is increasing activity in Trinity county particularly in gold quartz properties closed down for years but with large reserves of sulphide ores. C. J. Kerr of Portland Oregon and his associates have taken over the Cleveland and Bullycoop mine in Trinity county, just off the Redding-Weaverville highway.

"The old mine road is being reconditioned, and preparations are being made for the installation of new mining machinery. We are preparing to make a test run of the ore in our Sacramento mercuric-cyanide mill. Other Trinity county properties are being examined by engineers for eastern capital."

PERSONALS

Mr. and Mrs. Jack Atwood and son visited here Wednesday with Mr. and Mrs. Lloyd Hiscox before continuing in to Brown's Valley to visit Mrs. Hiscox's father, Mr. Percy Waters. Mrs. Hiscox accompanied them.

W. L. Peck and sister, Mrs. Maude Hardy of Wheatland visited their old home in North San Juan Saturday. They were accompanied by Mrs. Mary Maddrill and Francis Weidright of Bright, Yolo County.

THE WAYWARD'S SON'S LAST MESSAGE TO HIS MOTHER

"Fare well mother I am going
I will not be with you long;
I want to ask you for forgivness
For I know I did you wrong.

It seems to make my heart beat stronger
When I see you smile at me;
Mother I can't last much longer
I am dying can't you see?

I know I've caused untold worry
I have broken your trusting heart;
'Tis too late to say I'm sorry
Too late to make another start.

Oh! dear mother I am lonely
Will you stay and hold my hand?
It will help me on my journey
To a strange and unknown land.
I'll soon beneath the sod be sleeping
In a grave six feet or so;
Oh! tell me mother, that you forgive me
Tell me quick before I go.

If I had said the prayer you taught me
Just of said this simple prayer,
"Oh Dear God Who art in Heaven
Please keep me within your care".

But I forgot dear God in Heaven
I forgot this prayer and you
I am sorry mother, sorry
That to you I wan't true.

I can hear death's bugle calling
It's time for me to go along;
I guess I'm going, mother going
To where the wicked all belong.

Will I go to Heaven mother
Or to Hell 'way down below?
There's only One can tell me mother
Only God above, will know.

So goodbye my dearest mother
Dry those tear drops in your eye;
Don't feel sorry for me mother
But kiss your wayward son goodbye".

Then his eyes they closed forever
And his form grew cold and still
He was buried with all honors
In the grave yard on the Hill.

O'er his grave his mother whispered
As the tear drops filled her eyes,
"My son, my heart is going with you
To guide you on to Paradise."

WHEN AIRPORT IS ON CEMENT HILL MANY WILL TRAVEL

The time is coming when there will be an airport on Cement Hill and our citizens will exchange visits with many cities with a great saving of time.

This will aslo assist the city dwellers in spending many pleasant hours up in the pine timber.

Mrs. Fred C. Worth of the National Hotel, and Mrs. Jewett Adams guest, at the hotel motored as far as Sacramento Tuesday and took a fifty minute aeroplane ride to San Francisco They spent six hours in the city. On the trip they were from 2000 to 5000 feet above the earth, during most of the ride. They enjoyed the trip.

Reap this advantage of living in the 20th century

.... Cook with electricity

—the modern way

WHY NOT BENEFIT from your good fortune of living in the Twentieth Century by cooking with electricity?

The modern electric range cooks food deliciously and automatically. It gives you more time for out-of-the-kitchen activities.

Just prepare the food, place it in the oven, set the controls and go your way for the afternoon. When meal time arrives it will be perfectly cooked—piping-hot and ready to serve.

You'll be delighted with the cleanliness of cooking with electricity. Furthermore, it's speedy—the oven heats up to 400 degrees in 9 to 11 minutes. Platform cooking elements today are faster. As for cost of operation, that averages 1c a meal per person.

Come into our office and see the new electric ranges. Then select the model you prefer. Special terms make it easy.

Local dealers also sell electric ranges.

LEGAL NOTICE

No. 5912
NOTICE OF SHERIFF'S SALE OF REAL ESTATE, UNDER EXECUTION

IN THE.. SUPERIOR.. COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

JAMES BRADY, Plaintiff
vs.
M. IVAN DOW AND E. L. DOW, Jr., Defendants.

By virtu of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein James Brady is Plaintiff and M. Ivan Dow and E. L. Dow Jr., are Defendants. Upon a Judgment rendered on the 6th day of July, 1931, for the sum of Four Hundred Thirty-eight ($438.00), with interest thereon at the rate of 7 per cent per annum, till paid from the date of said Judgment, together with Twelve ($12.00) costs and disbursements at the date of said Judgment, and Clerks accruing costs of One Dollar ($1.00).

I have this day levied upon all right, title, estate and interest of M. Ivan Dow and E. L. Dow Jr., defendants, as aforesaid, in and to the following described real property to wit;

All those certain consolidated quartz and placer mining claims, being portions of Section Seventeen (17) and Twenty (20) Township Sixteen (16) North, Range (9) East, M. D. M., bounded and particularly described as follows; Commencing at the section corner common to Sections 16, 17, 20 and 21 of said Township, thence running South 88½° West following section line between said Sections 17 and 20, 16.81 chains thence North 55½° West 28.80 chains to post M. H. R. 12; thence South 64½° West 8.20 chains to post M. H. R. 14; thence North 74° West 4.86 chains to post M.H. R. 15; thence North 56½° West 4.49 chains to post M. H. R. 16; thence North 48° West 6.00 chains to post M. H. R. 17; thence South 49° 4.90 chains to post M. H. R. 1; thence south 11½° East 3 chains to postM. H. R. 2; thence South 13° West 8.16 chains to Post M. H. R. 3; thence South 9¾° W. 4.20 chains more or less to point 25 feet North of the croppings of Nolan's Nevada Ledge; thence North 70¾° East at 9.60 chains Post M. H. R. and B. C. 3, 12.02 chains to point on East side line of Nevada Q. M., South 23° East 0.73 chains to East Lode Post of Nevada Quartz M; thence South 15° 38' East 2.24 chain to North side line of Big Blue Q. M., thence South 68° West 5.82 chains to N. W. corner of Big Blue Q. M.; thence South 22° East 0.76 chains to S. W. Corner of Big Blue Q. M. thence North 68° East 5.76 chains to East end line of Nevada Q. M., thence South 15° 38' E. 1.86 chains to Section line between Sections 17 and 20; thence North 88½° 5.62 chains to the NW. Corner of the Nute Placer Mine; thence South 2° West 12.75 chains, thence South 45° 27' East 10.04 chains to post M. H. R. 6; thence North 88½° E 40.86 chains more or less to post M. H. R. 9; the line between sections twenty and twenty-one and thence North 0° 45' W. 20.45 chains more or less to the place of beginning. Also all those certain Placer and Quartz Mining Claims commonly known as the Sharp Consolidated Mining Claims and consisting of both Quartz and Gravel and known as the Greenman, Butterfly, Ben Harrison, Glencoe, Hickson, Enterprise. Little Kellog, and Red Rose Claims, and for a more particular description of the above named cleaims reference is hereby made to the Nevada County Recards in Book and pages as follows:

Greenman, Book 26, page 195, Kellog, Book 26, page 196, Rose Claims, Book 126, page 195, Enterprise, Book 24, page 68, Hickson, Book 24, page 69; and Ben Harrison, Book 19, page 161; meaning and intending to convey all the right, title and interest that the said Sharp, his heirs and assigns have or may have to the above described property, together with all personal property and improvement located thereon.

For further description of the above mentioned placer and quartz consolidated claims see Book Deeds 131, page 309, Nevada County Records, and including all water rights, ditches, machinery tools, timbers set upon or conneoted with or appurtenant to said premises or any part thereof; it is intended hereby to include all patented or unpatented quartz and Placer Mining Claims owned or claimed by the Grantor in Nevada Township, Nevada County, California.

Including all buildings and improvements tereon, or that may be erected thereon; together with all and singular the tenements, hereditaments and appurtenances, water and water rights, pipes, flumes and ditches thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions ,remainder and remainders, rents, issues and profits thereof.

Public Notice is hereby given that I will on Friday, the 31 day of July, 1931, at 10 o'clock A. M. of said day in front of the Courthouse door in Nevada City, County of Nevada, State of California, sell at Public Auction for cash, lawful money of the United States, all the right, title claim and interest of the above named defendants, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment and costs, etc., to the highest and best bidder for cash lawful money of the United States.

Dated: July 10th, 1931.
GEORGE R. CARTER,
Sheriff of Nevada County.
E. H. Armstrong, Attorney for Plaintiff.

JOHN HOCKING PASSED AWAY EARLY WEDNESDAY MORNING

John Hocking, 57 years of age, passed away Wednesday morning, four and one half months after he was forced to give up his work as compressor engineer at the Empire-Star Mines Co. Ltd.

He was a member of the Odd Fellows, Foresters and Knights of Pythias.

Mr. Hocking leaves to mourn his passing a devoted wife, a son, William, two daughters, Miss Eileen Hocking of Grass Valley and Mrs. A. P Tsvetkoff of Berkeley, besides a number of other relatives.

Burial was under direction of the Odd Fellows in the Foresters cemetery. W. R. Jefford and Son had charge of the funeral.

BIG BONANZA MINE IS BONDED TO UTAH PEOPLE

Sonora, Calif., July 31,—The Hickox Mining Company, a Utah corporation, formerly active in that state and recently reorganized with Paul Morris, formerly a banker of this town but now of San Francisco, as president, has taken over from Arthur Delray a lease and bond on the famous Big Bonanza mine on Piety Hill, within the city limits of this town, and is continuing its development. Mr. Delray has been retained as manager of the mine, which, according to President Morris, has a production record of $3,500,000, through the disclosure of "pockets" of pure gold, or rock of exceptionally rich value, at various periods since it was first and profitably worked in 1851 by Chilians.

Current operations at the property consist of drifting along the footwall section of a 12-foot fissure of porphyritic quartz and quartz stringers toward its junction with a slate dike, which, when reached, is expected by the management to reveal another of the rich pockets which have earned for the mine an unique position in California mining. A 10 inch streak of quartz in the face of the drift is at present yelding specimens in which free gold is visiblie to the naked eye, it is officially stated. The drift is being advanced on the 200-level of a shaft, which, on the incline, has a depth of 1,300 feet and a vertical depth from the surface of 586 feet. The property is equipped with a full complement of mining and milling machinery.

Under alease and bond from W. L. Mahoney of Larksboro, Calif, R. D. Storey, Richard and Lewis Scott, and Robert Muir, San Francisco business men, are vigorously developing the Mahoney placer gravel mine at the junction of the main and south forks of the Stanislaus River, four miles northwest of Columbia. Operations are being prosecuted by a force of miners under the direction of Mr. Muir. After building a three-quarter mile aerial tram and electric power line and installing an electric hoist, the new operators are sinkink a vertical shaft which has already gained a depth of 40 feet. It is estimated that only from 10 to 15feet ofadditional sinking will be required to reach bedrock.

J. F. Garrette and F. W. Stephens of Woodland, Calif., have acquired, under lease and bond, from the Linda Minerals Company a tuffa deposit at Cherokee, two miles north of Toulumne, and began its development with a force of miners. The deposit is a bedded plane formation, having an average thickness of 32 feet and covering 150 acres, and is located near the top of a lava-capped table mountain. The rock is utilized inthe manufacture of chiken feed and has many other commercial uses .Messrs. Garrette and Stephens have installed crushers, separators, dryers and other necessary machinery for the operation of the deposit on a large scale.

—0—

FIERCE FOREST FIRES

(Continued From Page One)

fight.

The fire burned down to Meyers Ravine and up this ravine to Camp Augusta. It burned Meyers Ravine Cayon to the South Yuba river.

More than a hundred men were rushed to the fire from Nevada City and Grass Valley, under the direction of State Forest Ranger W. F. Sharp.

State Forester M. B. Pratt came and went out to the fire lines, after completing an inspection of the big fire in the Chicago Park section.

Deputy Sheriff Jack Nettle made a fruitless search for a man believed to have set the fire above the Indian Camp. A travelin gsalesman reported suspicious actions of the man but a close search of the country failed to disclose him.

A speedy decision to repair the trestles and roadbed of the Narrow Gauge Railroad running from Colfax to Nevada City resulted in a large crew of men working on both the Nevada and Placer County sides of the Bear River. Before the timbers had quit burning these men were at work.

It was found that the big 810-foot trestle across eBar River that there was not a sound tie left from the Placer County to the Nevada Count side. How intense the heat was can be gauged from the way the railroad irons are twisted and bent from the Nevada County side to the middle of the trestle. Evidently it was not so warm on the Plecar County side as there were no bent rails beyond the middle toward Placer County.

A preliminary examination Monday by engineers determined that the steel supports had not been affected enough to make them expand.

The wooden tretle over the Colfax Grass Valley road was about half destroyed. Work of clearing up at this point started early Monday morning also. By late afternoon many of the new ties and timbers to be used for replacement had been hauled.

The fire came at an inopportune time for the railroad company, which during the summer derives a considerable revenue from hauling pears fro mthe Grass Valley and Chicago Park sections to the broad guage trains at Colfax for shipment to the eastern markets. Fruit and other outgoing shipments will be moved from Coleman Station to Colfax by truck, and less than carload lot shipments incoming will be handled in the same manner.

A crew of Southern Pacific bridge buliders were secured for the emeggency.

Two schools, one at Birchville and the Mariposa school near the Placer county line, have been burned in the last few weeks by fires.
